

## HDMI to HDMI+Toslink+R/L Audio Converter

### Why You Need It:

Help the shop to display and present HIFI products to target customer more easily

I All two-channel and some multi-channel power amplifiers, do not have HDMI inputs.

I More and more systems, especially the source devices are, HDMI based.

I The HDMI Audio Extractor can be easily inserted to any HDMI system and extracts analog and SPDIF audio out to feed the non-HDMI power amps.

## HDMI to HDMI+Toslink+R/L Audio Converter

The HDMI Audio Converter will extract HDMI audio and output standard Optical Digital Audio and L/R Stereo for easy integration with your existing Surround Sound System.

This unique HDMI amplifier will directly pass HDMI and convert HDMI audio to Optical 5.1 Digital Audio Optical and R/L Stereo audio.

### Features

- 1 HDMI Input, 1 HDMI Output
- Digital Toslink Audio output for 5.1 surround sound integration L/R stereo Audio output for stereo PCM mode.
- Audio interface supporting PCM, Dolby Digital, DTS digital audio at up to 192kHz frame rate
- Works with HDMI or DVI-D, HDCP-enabled HDTV
- Supports high-resolution video 1080P
